A WORTHY SUCCESSOR.
"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powder, acid gases, inhaier and drugs in paste form. Their powders dry up the mucous membrane causing them to crack open, and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts.
